PROFESSIONAL EXPERIENCE

LFT Curated Workspaces | Dumaguete City, Negros Oriental
Programmer and Community Coordinator | May 2026 - September 2026
- Designed, developed, and maintained web-based features that improved the functionality and usability of internal systems and the company website.
- Coordinated daily coworking space operations and delivered timely technical and administrative support to members and visitors.
- Implemented automation and AI-powered tools that reduced manual administrative work and improved team productivity.

Zimplistic Pte Ltd (Rotimatic.com) | Dumaguete City, Negros Oriental
Technical Support Specialist | October 2025 - March 2026
- Delivered remote technical support to 50+ customers daily for machine setup, operation, and performance issues.
- Diagnosed hardware and software faults through root-cause analysis and guided customers through clear, step-by-step resolutions.
- Documented support outcomes and explained preventive steps to improve customer experience and reduce repeat requests.

Miru Systems - 2025 Philippine National Election | Siaton, Negros Oriental
Technical Support (CCS Operator) | May 2025
- Supported time-sensitive election IT operations serving 57,737 voters and resolved system issues to minimize downtime.
- Logged incidents and resolutions with 100% compliance to audit and data integrity requirements.

Remotasks and Outlier | Remote
AI Training Task Contributor | August 2024 - October 2024
- Annotated 2,000+ images and videos for computer vision and autonomous-driving datasets and categorized language data for AI training.
- Evaluated chatbot responses and provided structured feedback to improve quality and model performance.

SELECTED PROJECTS

- **KeyTone:** Created a Windows utility with global keyboard input, per-key blue, red, and brown mechanical-switch sounds, profiles, audio-device recovery, and light and dark themes.
- **DeskCheck:** Built a C# and WPF diagnostic utility that checks system, memory, storage, and network health and exports support-ready reports.
- **SheetClean:** Developed a local CSV and TSV cleaning tool that detects duplicates and missing required values and exports cleaned data with a change log.

EDUCATION

Bachelor of Science in Information Technology | Negros Oriental State University | 2025
Languages: English (C1) | Filipino (Native)
